Пояснительная записка

Комплект измерительных материалов предназначен для контроля и оценки результатов освоения учебной дисциплины ОУД.04. «Иностранный язык» программы подготовки специалистов среднего звена на базе основного общего образования по специальности 09.02.07 «Информационные системы и программирование».

КИМ включает контрольные материалы для проведения текущего контроля и промежуточной аттестации в форме дифференцированного зачета.

Текущий контроль проводится на основании результатов работы обучающегося на практических и теоретических занятиях. Для аттестации обучающийся должен выполнить все задания, предусмотренные рабочей программой по учебной дисциплине.

Предусмотрены следующие виды работ, по которым проводится текущий контроль:

- контрольная работа;
- тестирование;
- устный опрос;
- письменный опрос.

Оценка результатов работы обучающегося за выполнение теоретического и практического занятия выставляется в журнал. Итогом дифференцированного зачета является оценка в баллах: 5 – отлично; 4 – хорошо; 3 – удовлетворительно; 2 - неудовлетворительно.

Отметка «5» выставляется за правильное выполнение 100% - 80% работы.

Отметка «4» выставляется за правильное выполнение 79%-60% работы.

Отметка «3» выставляется за правильное выполнение 59%-40% работы.

Отметка «2» выставляется при выполнении 0-39% работы

2. Прочитайте текст и ответьте на вопросы:

In 1992 the exhibition centre was renamed the All-Russia Exhibition Centre. Throughout the 1990s it appeared that the exhibition centre was destined to turn into a market and a tacky fairground, although since 2009 there have been plans to redevelop the centre which will hopefully preserve this unique place and keep this time capsule of the Soviet Union and Stalinist architecture intact. The Main Entrance to the exhibition centre is formed by a massive 32-metre arched gate. It was built in 1954 and is topped with a statue of a two agricultural workers holding a bale of hay above them and it also features several reliefs.

1. When was the Centre renamed as the All-Russia Exhibition Centre?
2. What is the main entrance of the Center?

3. When was it built?

Тема 1.4. Описание жилища и учебного заведения

Задание 1. Прочитать текст и найти соответствующие эквиваленты слов и словосочетаний:

Now I live in a hostel. But when I can afford to have my own flat it will be in a new 12-storey block of flats in a very picturesque place not far from the metro station. There will be a big supermarket on the ground floor and it will be very convenient to do my everyday shopping. My flat will be very comfortable and well-planned. There will be all modern conveniences, such as central heating, electricity, gas, cold and hot running water and a telephone. There will be three rooms, a hall, a kitchen, a bathroom and a toilet in my flat.

At first I will decorate all the windows with nice curtains. The largest room in my flat will be the living room and it will be used as a dining room and as a sitting room. In the middle of the room there will be a big table and six chairs round it. There will be two comfortable armchairs and a small coffee-table in the right-hand corner. There will also be a sofa and an electric fire in the living room. The bedroom will be the smallest in the flat, but it will be cosy and light. There will be a bed, a wardrobe, a desk, an armchair, a mirror and several bookshelves in the room. There will be a thin carpet on the floor.

The kitchen will be large and light. It will be well-equipped. There will be a cooker, a fridge, a dishwasher, a microwave oven, a coffee machine, a toaster and a cupboard. It is said, "Men make houses, women make homes". Indeed it is very important for every person to have a good comfortable flat with well-wishing people in it.

Today Alexander and his foreign friends are going to the rock concert "Music, help!" in the Polytechnic Museum. Alex lives on the outskirts of Moscow. He does not know how to get to this place, so he asks his father:

- Dad, can you tell me the way to the Polytechnic Museum? How can I get there quickly?

- Sure. It's situated in the very centre of Moscow. Take the metro and get off at the Lubyanka station. Then go up the stairs to the street. There is a square opposite the exit, called Novaya Ploshchad. The Polytechnic Museum is a big long building just in front of you. Go straight across the Square. It is behind the bus stop.

- Thanks, Dad.

Alexander goes to the local metro station. He leaves the entrance to his block of flats, walks along the side street, turns left and then right. It takes him only a ten-minute walk to get to the metro station. Alex goes down the stairs and takes a train. In forty minutes he is at the Lubyanka station. He

turns left to the escalator. Today the station is not so crowded. He goes up. He sees the old building of the Polytechnic Museum across the square and walks straight towards it. At the crossroads next to the Museum he meets with his friends – Peter, Jane and Nora. They are glad to see Alex. They come into Museum hall. The concert starts in a quarter of an hour.

Тема 1.8. Магазины, товары, совершение покупок

Задание 1. Прочитать текст и выполнить задание:

Some weeks before Christmas shops are very busy. People buy presents for their relatives and friends. When I buy presents I always ask myself "Would he or she like to have this thing? Will he or she like my present?" Choosing presents is a difficult business for me. I never buy whatever comes up. I think twice and try to find reasons before buying this or that. This year I've bought a saucepan for Granny. Her old one is too small for our family. I've bought a new tie for Granddad. His old one isn't trendy at all. I've bought a very beautiful flower for Mum and a nice fish for Dad's aquarium. My little sister Jane likes watching cartoons. So I've bought a cassette with her favourite ones. All these presents are from the heart.

TOP TIPS FOR TRAVEL

Download a good map app.

Whether you're studying, working or on a vacation, traveling can be one of the most rewarding and educational experiences in life. But there are also a few challenges that every traveler will face, so we've prepared some helpful tips to make things easier.

Prepare all you want, but sometimes you'll get lost. It'll happen. A few years ago, this might have been a problem, but these days there's an easy solution: download a good map application to your phone. If you get lost, just turn on GPS and you'll find your destination in no time. The joys of modern technology, eh?

Learn about the transport system.

Every country is different, but your needs will always be the same: you need to move around quickly and easily. So study the transport system in your destination before you visit. Sometimes it's really simple: a single metro system for the whole city. Great! Sometimes it's more complicated: a mixture of public and private train lines, multiple bus companies and different kinds of taxis. Either way, find out about it before you travel.

Learn to say 'hello', 'sorry' and 'thank you'.

You don't always need to learn the entire language of the country you're traveling to, but you should learn three key words: 'hello', 'sorry' and 'thank you'. These words will bring friendly smiles from locals, they'll get you out of trouble, and they'll get you help when you need it. Most of all, they'll make you sound lovely and polite. Learn them!

Задание 3. Прочитать текст и ответить на вопросы:

Why I hate smartphones

1. First of all, very few teenagers really need a smartphone. If you need to call your friend or use the internet, a normal mobile phone or computer is good enough. A smartphone is a status symbol. Teenagers like being seen with one- they think it makes them look important and successful. It is also very fashionable nowadays. People buy them, in the same way as they buy the latest trainers or jeans, and very often don't use most of the functions.

2. In addition, teenagers can waste a lot of time and money on smartphones instead of doing more interesting and healthy things like sport. As well as this, it can actually be dangerous in some situations to use a smartphone, even when just walking about with one. According to the police, a lot of accidents happen when people concentrate on their smartphones and don't notice what is happening around them. Also, teenagers often get their expensive smartphones stolen.

1. If the article did not have the title, would it be clear from the text that the author really hates smartphones? Why?

2. Do these paragraphs sound more like somebody's opinion or like an argument against smartphones?

3. Imagine that this is not a magazine article, but an opinion essay with the question "Smartphones are becoming very popular with young people. Is a smartphone the gadget every teenager should have? What is your opinion?"

Do you think these paragraphs would get a good mark? What is missed in them?

4. How can you make this text sound like an opinion essay? Rewrite part A or B so that it sounds like your opinion.

Задание 2. Прочитайте текст и определите правильные (True) и неправильные(False) утверждения. Исправьте неправильные:

In recent years, scientific and technological developments have drastically changed life on our planet as well as our views both of ourselves as individuals in society and of the Universe as a whole.

Today, science and technology are closely related. Many modern technologies such as nuclear power and space flights depend on science and the application of scientific knowledge and principles. Each advance in pure science creates new opportunities for the development of new ways of making things to be used in daily life. In turn, technology provides science with new and more accurate instruments for its investigation and research.

Technology refers to the ways in which people use discoveries to satisfy needs and desires, to alter the environment, to improve their lives. Throughout human history, men and women have invented tools, machines, materials and techniques, to make their lives easier.

Of course, when we speak of technology today, we are looking at it in a much narrower sense. Generally, we mean industrial technology, or the technology that began about 200 years ago with the development of power-driven machines, growth of the factory system, and mass production of goods that has created the basis for our modern society. Today we often say that we live in an age of science and technology. According to one estimate, 90 % of all the scientists who ever lived, were alive and active in the 1970-s. This increased scientific activity has brought new ideas, processes, and inventions in ever-growing amount. The scientific revolution that began in the 16th century was the first time that science and technology began to work together. Thus, Galileo, who made revolutionary discoveries in astronomy and physics, also built an improved telescope and patented a system of lifting water.

However, it was not until the 19th century that technology truly was based on science and inventors began to build on the work of scientists. For example, Thomas Edison built on the early experiments of Faraday and Henry in his invention of the first practical system of electrical lighting. So too, Edison carried on his investigations until he found the carbon filament for the electric bulb in a research laboratory. This was the first true modern technological research. In a sense, the history of science and technology is the history of all humankind.

1. Science and technology are closely related.
2. Revolution refers to the ways in which people use discoveries to satisfy needs and desires.
3. It was not until the 17th century that technology truly was based on modern science.

4. The scientific revolution that began in the 16th century was the first time that science and technology began to work together.

5. Throughout human history, men and women have invented tools, machines, materials and techniques, to make their lives harder.

Задание 3. Перевести предложения на русский язык:

Тема 2.2. Машины и механизмы. Промышленное оборудование

Задание 1. Прочитать текст и ответить на вопросы:

"Automation" is a new word for a new purpose. Ordinarily automation is any improvement in the control of some activity or process by non-human, i.e. automatic means, but sometimes the term is defined more narrowly. Recent steps in automation have followed each other with unusual speed. Many people are surprised to learn that in industries like chemical and oil-refining entire processes have become very nearly automatic. They want to know how this has happened. Electronic computers are becoming very good at routine clerical work in offices and factories. „ Automation has many sides. It includes, for example, developments that are no more than advanced mechanization - transfer-machines in engineering, many kinds of machinery for making finished goods, and mechanical equipment for handling and assembly. Machines of this kind are automatic in that they do the actual work on their own; the operators only watch them and correct them whenever they go wrong - when, for instance, tools wear out. But automation can also mean automatic control of processes and machinery, and this is a very different thing from mechanization, though the two go together. Control is necessary in a vast number of processes in order to maintain the quality of a product when the operating conditions, such as temperature and pressure, change from time to time.

1. What is automation?

2. What industries have become very nearly automatic?

3. What is the difference between "automation" and "automatic control"?

4. What is the purpose of automatic control?

5. Where are electronic computers employed?
